Dear OUSSAMA AIT MANSSOUR,

We are delighted to invite you to complete your internship program related to Cybersecurity at Project Cypher FZ LLC.

The internship will start remotely on July 1st for a duration of 3 months and will focus on the research and development efforts with our product development team.

The main product development track you will be assigned to will be for "CyherLeak", a platform enabling our corporate customers to know whenever their employee's emails and credentials have been compromised. This is made possible through parsing data dumps across public and dark web.

We look forward to having you onboard, and we will strive to make your internship with us as rewarding as possible.

Best,

Mohamed Amine Belarbi

Founder & CEO
